

First Aid Refresher Guidance

- It is a requirement of NARCH registration that the RCH uploads evidence of completing a Canine First Aid course every two years.
- The initial Canine First Aid training must be in person as part of a hydrotherapy qualification.
- RCH's may then refresh their initial first aid training by either completing an attendance-based first aid refresher course or an on-line first aid refresher course.
- All refresher courses are valid for 2 years.
- If you complete an online refresher course, then the following refresher course **MUST** be attendance based.
- All courses must be supported by an attendance certificate.
- The RCH's status will be automatically moved to suspended if they have not uploaded proof of attending a refresher first aid course on the two year anniversary of having completed the previous.
- All courses must be from the list of those meeting NARCH requirements
- All first aid courses count as CPD so should be uploaded to both the First Aid and CPD section of the RCH record.
- Veterinary surgeons and **practising** registered veterinary nurses may request an exemption from Canine First Aid refresher training in the first aid tab of their record.
